Frank A. Cusack, general secretary of the Y. M. C. A., has tendered his resignation. Mr. Cusack will leave this city on his way to Cape May, N. J., where he will enter the employ of a life insurance company.

Mr. Cusack is a graduate of Wesleyan University in the class of 1917. Last year he studied at Drew Theological seminary, New Haven, N. J. He was in anti-aircraft service in New York for some time and then went to Cape May, N. J., in charge of the naval air and naval hospital in connection with the international war work council of the Y. M. C. A. He later took charge of the (naval) naval hospital, after which he was stationed at Camp Tollymore, Pa., for a short period. He came to this city as general secretary of the Y. M. C. A. while here Mr. Cusack was a diligent worker, always affable and considerate.

No definite action has been taken in regard to changing the Y. M. C. A. into a community house, although considerable progress has been made in the plans. The committee in charge consists of J. H. Patterson, R. Frank Hughes and Frank H. Paine. A new twenty-inch boiler is to replace the present eight inch boiler which cracked last week. The new apparatus which will be installed will be a great improvement, as it will be of capacity for heating much more water and in a shorter time than the former boiler.

Secretary Cusack announced that the new recipe from the national campaign and the Mike party are announced to be \$12,421.24, which with outstanding pledges equals \$12,421.24, making the association to pay the mortgage of \$10,000 and the expense of the campaign, \$1,560.24. The balance can be used to defray current expenses and provide a working fund for the year.

Conditions are not yet back to normal in the town of Windham, including the city of Willimantic, although considerable improvement has been made during the summer months. This fact was shown by a survey of manufacturing conditions in Windham. A little less than 2,500 are employed in the various industries and 2,400 of these are actually at work. The textile industries of the city. Every plant shows a reduction of from ten to twenty per cent. in the number of operatives employed as compared with normal times. Seven of the twelve manufacturing plants in the town are operating on the city-light hour work schedule, one on fifty hours a week, one on fifty-five and another on fifty-nine hours. The officials of the various plants said that they were enough on hand or in view to keep the mills in operation during the winter. The cotton business is improving, but the wool business and business at the machinery plants are below normal.

Salvation Army Head May Be "Promoted"

When the car was stopped, Bay told the officer that he was a liar, then both were taken into custody. Flint admitted that he had been warned once before in regard to his speed, while going past the school house on Jackson street. Flint was fined \$15 and costs, of which \$15 of the fine was remitted. Bay paid a fine of \$1 and costs amounting to \$3.15. He was cautioned not to talk back to an officer.

The weekly meeting of the Rotary club was held Tuesday noon with an attendance of 99. President Valentine L. Murphy was in charge. The guest, the meeting was Roy Davis, New England representative of the Weaver Piano Co., Inc. of York, Pa. A report of the meeting held at the chamber of commerce rooms in the interests of a proposed community entertainment course was read by James P. Bath. At the next meeting Harry M. Congdon will give his autobiography and Louis A. Kingsbury will make the presentation speech. A ten minute talk concerning some phase of his business was given by Eugene Gilman for not going through with the initiation ceremony at the last meeting. Mr. Gilman talked on the bakery business and gave the history of bread. Herbert W. Whidden, who gave the autobiography of the day, told of his first employment in an old-fashioned country machine shop, in Dover, N. H., which town he was born. He gave interesting details of his life up to two years ago when he became master mechanic for the American Thread company. Mr. Whidden's only hobby is boats and he said that the only fault with Willimantic is that it has not a pond big enough to sail a boat. After making the presentation speech, John C. Tracy handed Mr. Whidden a cigarette holder.

The meeting was then turned over to Harry W. Whidden, chairman of the entertainment committee and he presented as speaker of the day, Professor Richard E. Dodge, dean of the two year course at Connecticut Agricultural College, Storrs.

Professor Dodge said that he had taught for more than twenty years in New York state before coming here and he knew the reputation of C. A. C. while still in New York. He said this reputation was really justified after he had taught at Storrs a short time.

Mr. Dodge told at length of the functions of the college and explained its value to all concerned. In concluding his talk he said that the dominant note at Connecticut Agricultural College is Service to the State. A rising vote was given to the speaker.

After an interesting account of the work of his parents, who were missionaries in India, Mr. Gates' father was murdered by a native about a month ago. The men were about 20 percent from Scotland.

Young Girls Need Care

FROM the age of twelve a girl needs all the care the thoughtful mother can give. Many a woman has suffered years of pain and misery—the victim of thoughtlessness or ignorance of the mother who should have guided her during this time.

If she complains of headaches, pains in the back and lower limbs, or if you notice a slowness of thought, nervousness or irritability on the part of your daughter make life easier for her.

Lydia E. Pinkham's Vegetable Compound is especially adapted for such conditions. It can be taken in safety by any woman, young or old.

Greenville, Del.—"I was under the impression that my eldest daughter had some internal trouble as ever since the first time her sickness appeared she had to go to bed and even had to quit school once for a week. I always take Lydia E. Pinkham's Vegetable Compound myself so I gave it to her and she has received great benefit from it. You can use this letter for a testimonial if you wish, as I can not say too much about what your medicine has done for us."

Mrs. Wm. S. HUGHES, Greenville, Del.

Wauseon, O.—"My daughter always had backache and legache at certain periods and could not be on her feet. We read about Lydia E. Pinkham's Vegetable Compound doing girls so much good so she began to take it. That is two years ago and she is a different girl since then, able to do any work she wants to do—and so well and strong. We recommend the Vegetable Compound to mothers with ailing daughters."

Mrs. A. M. BURKHOLDER, Route No. 2, Box 1, Wauseon, Ohio.
